

A CSW Industrials Company

TripleGuard™

THE ULTIMATE SOLUTION FOR WATER LEAK DAMAGES PREVENTION

Automated monitoring of the premises 24/7

Full control of water infrastructure via the mobile phone App or from the Monitoring Station

Real-time temperature measurement

Peace of mind

TripleGuard SMART

Monitored facility leak protection

Code	Description	Qty
97710	TripleGuard Smart with 3/4" Ball Valve	1
97712	TripleGuard Smart with 1" Ball Valve	1
97714	TripleGuard Smart with 1-1/4" Ball Valve	1
97718	Water Leak Detector only	6

FEATURES

- Easy, fast installation - No drilling and cable trenching required
- No electrician is required
- Communicates through mobile App with real time status
- Immediately senses water leaks using either the array of water detectors or integrated water meter
- Control and manage abnormal water flow and extreme temperature situations
- Smart shutoff unit controller
- Simple integration with any 3rd party system
- Robust, secured and operational at all time

APPLICATION • Automatic water leak detection

- Detects water leaks in the places that are prone to leaking such as under the sink, near water heaters, washing machines and dish washers
- Close the shutoff unit and block the water supply into the premises when leaks are detected
- Designed for all types of dwellings and businesses - private homes, condominiums, multi-family apartments, business premises and hotels

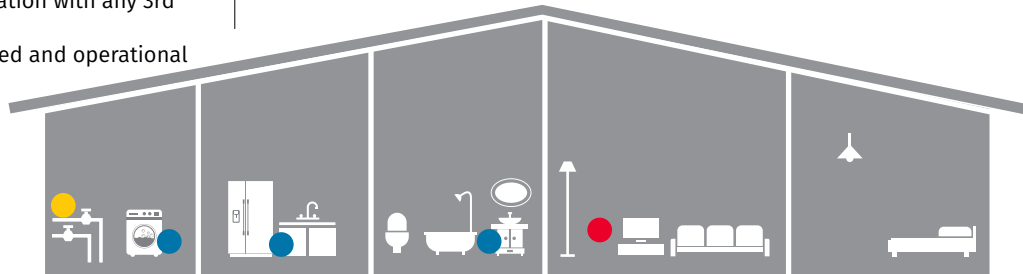

SHUTOFF UNIT - Battery operated

WATER LEAK DETECTORS - Battery operated
